

Approved Industry Certification Exams for A-F Accountability

Below are the approved Industry Certification exams that if passed by students will count for a school and corporation's A-F (PL221) grade. Success on these exams is part of the College and Career Readiness metric for High School accountability for 2011, 2012 and 2013 graduates.

Please note that some Career and Technical Education (CTE) courses may not have an exam but may be part of a dual credit partnership with a college. Therefore some Industry fields not found below may be in the *Approved Dual Credit Course List*.
